## Trustee Partners Approves DomaCom for retail super

Fractional property investment company DomaCom (ASX:DCL) is pleased to announce that Trustee Partners have approved the inclusion of the DomaCom Fund as an investment option for their retail Superannuation Fund.

Trustee Partners currently offer a menu of 33 domestic and global managed funds managed by 17 leading fund managers. DomaCom will join this list to provide access to Australian residential, commercial and farmland property delivering further diversification.

DomaCom CEO, Arthur Naoumidis said, “Accessing retail super is another significant first for DomaCom, further broadening our potential in the retail space. Most advisers have a significant proportion of their clients in retail super who have not been able to access the DomaCom Fund until now”.

He added, “DomaCom has the ability to pave the way for creating thematic investment funds to give investors earnings potential in otherwise difficult to access assets such as residential property and farmland. For those interested in investments with impact we can also offer affordable housing, energy and other socially responsible investments”.

Andrew Peterson, CEO of Trustee Partners, says “Financial Advisers can now create their own white labelled retail super offerings that include direct property using the DomaCom solution and Trustee Partners – a unique offering for financial advisers and their clients”.

DomaCom intends to extend the technology to provide an equity release solution for senior Australians (subject to ASIC relief being obtained) to access much needed capital, whilst affording the next generation an opportunity for income and capital growth through property. This elegant solution will match the time horizons of retirees with those of SMSF trustees who want a longer term allocation to property of their choice in locations of their choice.
