2 Fair value measurement

(a) Recognised fair value measurements

The Fund measures and recognises assets and liabilities at fair value on a recurring basis.

To provide an indication about the reliability of inputs used in determining fair value, the Fund classifies its assets and liabilities at fair value into three levels prescribed under the accounting standards. An explanation of each level is set out below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents the Fund's financial assets measured and recognised at fair value:

(b) Valuation process

The Responsible Entity through the Fund's Manager conducts an investment property valuation process on a rolling 12 month basis. All independent valuations are performed by independent professionally qualified external valuers.

Existing properties

On an ongoing basis, the Responsible Entity through the Fund's Manager, assesses whether there has been a material change in the value of a property. External valuations are obtained within 2 months after the management form a view that there is a likelihood that there has been a material change in the valuation of the property.

To make this assessment, the following steps are performed by the Fund's Manager:

- 1 perform desktop assessments of current values through discussions with external valuers and by using external market data feeds to gauge the current market situation;
- 2 compare the initial assessment of current value to the most recent book value and determine the percentage movement; and
- 3 if the property has been acquired in the last 12 months, the valuation on acquisition may still be valid but is reviewed against comparable sales/market data.

Development properties

The total cost of a development property is generally capitalised to its carrying value until development is complete. At the commencement of a development project, an estimated valuation on completion is obtained and the capitalised costs during the project are monitored against this initial valuation.

At each reporting date, the carrying values of development properties are reviewed to determine whether they are in excess of their fair value. Where appropriate, a write-down is made to reflect fair value.

Other investments at fair value through profit and loss

Fair value of Other investments at fair value through profit and loss is calculated from the net asset value determined and advised by the relevant external manager.

Mortgage Securities

Fair value of the mortgage funds is calculated from the net asset value determined and advised by the relevant external manager.

Directors' responsibility for the half-year financial report

The Directors of the Responsible Entity of the Scheme are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Scheme's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations* 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
